

**Classic File & Catalog Holder**

In order to achieve a correct mounting of Classic File & Catalog Holder, you are advised to read and follow the instructions step by step. If there are incomprehensible steps, please let us know and we will get back to you.

Part Check-List

<p>①  x1</p>	<p>②  x2</p>
	<p>③  x1</p>
	<p>④  (M6x10) x2</p>

① Place the sliding nuts② approximately 240 mm apart. Push them into the lower toolbar T-slot, then turn to make the spring face away from you.

② Attach the supporting piece③ to the backside of the shelf①. Once attached, hook the shelf① to the upper toolbar T-slot. Leave hanging.

③ Align the screw holes of the sliding nuts② with each respective hole of the shelf①. Once aligned and hooked, mount the screws④.

④ Classic File & Catalog Holder is now fully assembled and ready to be used.
